Suspension

Lamp (Bulb) Description
54W LED custom 2700K CRI90 2751lm delivered

Environment
Indoor - Dry Location

Dimming
Active 0-10V/DALI/Push Button

Finish
Black

Technical and Product Description
Arrangements is a modular system of geometric light elements that can be combined in different ways, creating multiple compositions into individual chandeliers. Each unit simply attaches onto the previous one as if resting, balancing perfectly as a part of a glowing chain.

Please note that the maximum power is 190 watts. You can choose any combination with the caveat that there can only be one 'line' or 'broken line' and when you attach it, it must go at the bottom.

The ceiling canopy is available in two sizes. The first size is Max 70 watts and the second is 190 watts. The appropriate canopy is automatically configured based on your fixture design.

Please use the configurator to build your own custom creation Click here.

The following are the only compatible dimmers (not included)

1. 0-10V Wall dimmer - Crestron - CLW-DIMFLVEX-P-A-S
