

Spun Light F, Shiny White - Specification Sheet
by Sebastian Wrong, 2003

Mounting	Free Standing
Lamp (Bulb) Description	1 x 200W A-21 Medium Frosted Incandescent (Included)
Environment	Indoor - Dry Location
Finish	Shiny White
Technical and Product Description	<p>Designed by Sebastian Wrong in 2003, the Spun Light F floor lamp is the embodiment of modern manufacturing technology combined with elegance and craftsmanship, inspired by dynamic fluid aesthetics.</p> <p>The designer floor lamp's main body has a spun metal frame and a diffuser. The die-cast aluminum diffuser support arms and lamp-holder support. The diffuser supports are white, injection-molded polycarbonate. The dimmer has a 0-100% luminosity adjustment on the polarized cord.</p> <p>The Spun Light Floor Lamp emits diffused light. It is available in black, mud, white and polished aluminum.</p> <p>Take a look at the entire Spun Light Family.</p> <p><u>Inspiration Behind the Design:</u></p> <p>Sebastian Wrong's work is three tiered – it is the perfect balance between function, aesthetics and refinement. Wrong was inspired by visual capabilities of fluid dynamics when designing this contemporary floor lamp.</p>

Electrical

Voltage	120
Switching	0-100% dimmer installed on the cord
IP Rating	IP20

Physical

Cord Length (inches)	96" - Black
Construction Material	Aluminum and steel
Weight	20.5 lbs

FU661209 - do not use Shiny White
