Mounting	Base on Ground
Lamp (Bulb) Description	LED STRIP 61W 3240lm 2700K CRI 95
Environment	Indoor - Dry Location
Finish	Anodized Champagne

Technical and Product Description Coordinates, is a lighting system consisting of horizontal and vertical strip lights that form illuminated grid-like structures of various complexities. The system can be easily adapted for different environments of varying scales. In addition to the customized solutions, there are a collection of standard chandeliers of pared-down configurations that can be used in any setting. This design evolved from a commission for the feature lighting of the main dining area of the historic Four Seasons restaurant in New York City. The restaurant relocated and opened in 2018 with the interiors designed by San Paolo-based architect Isay Weinfeld.

Electrical

Voltage	120
Switching	Foot Dimmer switch that provide ON-OFF functions and 10-100% light adjustment
IP Rating	IP20

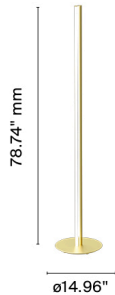

Physical

Cord Length (inches)	102" Black
Construction Material	Extruded aluminium, platinic silicone extruded opal
Weight	26 lbs

F1801044 Anodized Champagne
